## WELCOME TO SUDARSHAN GROUP

### Chairman's Message

It gives me great pleasure to welcome you all at Sudarshan Minerals & Industries. Sudarshan Minerals & Industries introduces itself as a prominent Manufacturer, Exporter and Supplier of minerals and Industrial Salt. Our products are appreciated for their excellent quality and high purity, which has led to their high appreciation in the market. Offering such products, the company has registered its name amongst the top-notch companies in India. Our close to forty years of experience in this business, ethical business practices and transparent dealings speak volumes about our credibility. Research & Development are the prime movers of all technological developments. In its constant efforts to improve & develop the R&D activities, your Company has introduced several new products and applications for the improvement in operating efficiencies and reduction in manufacturing costs. Keeping this in view, Our Company has been investing substantial amount for R&D activities.

We believe that the success of the company is dependent on the success of the clients. For this reason, we take every possible effort in matching with the needs of the clients. We thus maintain high quality standards throughout the production process. Also, we maintain high punctuality regarding the on-time delivery of the products. All these efforts have helped us become the dependable name amongst the clients, who are of utmost importance to us. Our strength is the skill of our people and the knowledge capital we have generated. We have a highly proficient team that acts as our loyal backbone. Our team comprises experienced production personnel, quality analysts, researchers, and sales & marketing executives.

All these professionals are experts in their respective fields and apply their understanding to deliver what the buyers need and expect. Each member of the team is sensitized to act as an owner. Organization pride is a very strongly shared value amongst employees.

**MR. R.P. GUPTA**  
(Chairman)  
National President Mining Engineers  
Association of India(2007-09)

### Company Profile

Based in Udaipur, Rajasthan, Sudarshan Minerals & Industries is a well-reckoned Manufacturer, Exporter and Supplier of Minerals Color Pigments and Industrial Salt. The company is working under the valuable guidance of its Mr. R. P. Gupta, Mr. R. K. Gupta and Mr. Neeraj Gupta. Their combined efforts and strong motivation play a pivotal role in the company's growth. Established in 1975, the company is enriched with vast experience which enables it to deal with the most challenging demands. The company has won many awards in field of mining & social activities.

**We are great at what we do**

### Infrastructre

We have set up a state-of-the-art infrastructure, which has all the ultra-modern technology facilities and amenities to design and manufacture products which match the international quality standards.

- Spread over an area of 50,000 square meters, the highly sophisticated manufacturing unit of the company is its main pillar of support.
- Our infrastructure helps in assuring smooth and flawless production process. Our manufacturing unit includes sophisticated machinery like :  
Crushermill, Hammer Mill, Raymond mills, Pulverizer, Classifiers & Ball Mills  
Particle Size Analyzer  
Reflectance Meter • Specific apparatus for chemical & physical analysis

# Leaders for Industry Solutions

## Overview

Leveraging on our rich industrial experience and domain expertise, We are reckoned as a leading manufacturer, trader and supplier of rich mineral resources. Our products are used in wide variety of Industrial applications. We are committed to exploring new ideas and adapting innovating technologies in a constant effort to serve our customers evolving needs.

Our high quality minerals are offered on-demand at competitive prices. In addition to this we are engaged in the diversified array of businesses such as Technocrats: Mining & Manufacturing experts, Mining Engineering, Miners, Manufacturing and trading. Owing to our infra structural facilities at present we have 4 mining units, each of which is producing high quality talc, these are situated in Udaipur Zone with specific locations being: **Sonariya (Lakhwari), Ushan (Rama), Barundiya (Gogunda), Blakh (Kotra).**

## Our Products

We are reckoned as a leading manufacturer, trader and supplier of **PCC, Sodium Silicate, Dolomite Powder, Calcite Powder, etc.** However our complete gamut includes **Calcium Carbonate, Natural Calcium Carbonate, Activated Calcium Carbonate, Talc, Kaolin, Calcined Kaolin, Silica PPT, Mica, Dolomite, Diatomaceous Earth, Alum, Surface Active Fillers, Activated Minerals,** and the likes.

We are also manufacturers and traders of **soapstone powder, calcite powder, calcium carbonate powder, dolomite powder, china clay powder,** with specialization in micronised quality of each mentioned grade.

## Quality Ensured

Ever since our inception, many years back, our focus has always been on providing flawless range of products to our clients. To make sure 100% quality products we secure requisite raw materials from reliable vendors of the industry.

From our establishment itself we are known for our never compromising quality attitude. We have hired a team of quality control professionals, who undertake stringent quality control measures ensuring maximum product quality.

Our entire product-line stand high on verge of all quality so that they can easily withstand the domestic and international competition.

Limestone

Calcium Carbonate

Cracked Alum

Talc

**DOLOMITE MINING**

Our range of products find their applications in various domains. The talc, china clay, dolomite and calcite is used in many manufacturing industries, that includes Paper Industry, Paint Industry, Cosmetic industry, Textile Industry, Ceramic Industry, Rubber Industry, Plastic Industry, PVC Industry, etc. Furthermore, we direct all our endeavors towards attaining utmost client satisfaction. This has been possible due to the impeccable quality products, which we offer to our valued clients. Owing to the quality and the industry leading of our products, we have become a tough competition for our rivals in the industry.

## TOUCHING MILLIONS

### TALCUM POWDER

We mainly produce talc powder pertaining to paper grade & cosmetic grade (Micronised). The powder of brightness ranging from 80% to 95% is processed by us. Our major consumers are well-known paper & cosmetic industries in Indian market. For past three decades, we have been producing this grade with many modification and improvements in the production technology to meet the standards of our valued customers. We process talc up to 5 microns.

### CALCITE POWDER

We manufacture Calcite powder of purity ranging from 93% to 99% CaCO<sub>3</sub>, to cater the demand and specifications of our valued customers. We are at present supplying nearly 42000 ton per annum of calcite powder to Hindustan Lever Limited and that too by bulk handling system with help of specially designed tankers and screw conveyors, capable of handling the solids in powder form. We process micronised calcium carbonate up to 16 microns.

### DOLOMITE POWDER

Dolomite powder is the limestone powder with composition of CaCO<sub>3</sub> and MgCO<sub>3</sub> pertaining to 100% in combination, the proportion being varied as per mining zone. Dolomite is also being used as Fillers by detergents, steel, paints and ceramics. We are basically supplying nearly 25000 ton per annum of dolomite powder to detergents industries. We process dolomite upto 20 microns.

### CHINA CLAY POWDER

China Clay Powder has wide variety of use in detergents, paints, paper and cosmetic Industry. We are supplying nearly 12000 ton of China Clay powder to the detergents and toilet soaps units. We process china clay up to 10 microns.

Pneumatic conveying limestone powder to silos.

**HAPPY LIVING**

## Our Commitment to Corporate Social Responsibility

### At SUDARSHAN GROUP,

We make it a priority to act as a responsible mining company, from our management practices to our health and safety standards to our stewardship of the environment. We understand that our business activities have an effect on the people who work in our operations, their environment, and on their communities. Our growth and success as a company depends on the long-term economic, social and environmental sustainability of each of the communities in which we work and live. We are committed to strictly enforce a policy of not employing underage workers. Therefore the minimum age of our employees & workers is 21 yrs. To ensure that communities benefit from our activities, we make significant contributions to local social and economic growth. We run support and development programs ranging from infrastructure initiatives, to local educational facilities improvements, community medical and blood donation & eye camps programs. Our Charitable Trust in the name of : **SARASWATI DEVI JUGAL KISHORE**, provides free dialysis to poor patients and donates Dialysis Machines. At all times we strive to demonstrate our respect for local cultural and environmental values.

## HEALTH & SAFETY

Our people - both employees and contractors - are our greatest asset and the core of our success. We depend on skilled, hard-working and empowered people, and in return we seek to maintain a safety-first culture in which everyone is motivated to do the right thing to keep themselves and their colleagues healthy and injury-free. While mining is regarded as a hazardous industry, safety procedures and site

standards help to ensure that tasks and work practices are performed in a safe manner with minimal risk. All employees are trained on safety procedures and the use of Personal Protective Equipment (PPE) as applicable to their job function. Training programs, safe work procedures, site housekeeping and operational standards are enforced, to improve workplace safety and minimize risk to people and equipment. At every operation, we maintain highly trained, well equipped emergency response teams, with specialized skills in such areas as advanced first aid, vehicle rescue, fire fighting, and chemical spills and recovery. We can boast of our safety record: Zero(0) accidents in the past year & Zero(0) in the last 5 years.

## OUR ENVIRONMENT

We are committed to preserving the long-term health and viability of the natural environments affected by our operations by using resources efficiently, applying a precautionary, proactive risk-management approach to safeguarding the environment and preventing or mitigating the impacts of environmental incidents. Working with the appropriate government agencies, partners and key stakeholders, we ensure that our activities meet or exceed legal requirements and societal expectations.

We continually seek new strategies for enhancing our environmental performance, including programs to improve minimization of waste. At every stage of the mining life cycle, we apply best practices in environmental management.

From the earliest site investigations, we carry out comprehensive environmental studies to establish baseline measurements for flora, fauna, land, air and water. During operations we do not generate any chemical effluent. Toxic Solvents are used in the process. Our adequate dust extraction system is in place. After mining activities are complete, our objective is to restore the land to an adequate level of productivity and to support sustainable land use.

**SUDARSHAN GROUP**

## INFRASTRUCTURE

We have set up a state-of-the-art infrastructure, which has all the ultra-modern technology facilities and amenities to design and manufacture products which match the international quality standards. Our plants are efficient and assists us in streamlining the complete production activities and meet the bulk orders requirements of our valued clients. Our infrastructure is segregated into different units like manufacturing, quality controlling and warehousing. The quality control wing keeps a close vigil on the quality of raw material used and also the end products manufactured.

## RECOGNITION

Awards recognize industry-leading innovation, inspired design and the pursuit of individual excellence, which is why we're so proud of our winning achievements. They are our opportunity to shine the spotlight on our people, inspire our potential, highlight our continued dedication to exceeding the contemporary standards by which we abide, and celebrate our success as a business.

### PRODUCTION CAPACITY [Tons/Month]

Soapstone (Talc) powder : 2500  
Calcite powder : 5000  
Micronised Calcium Carbonate : 3000  
Dolomite powder : 4500  
China clay powder : 1500  
Feldspar : 1500  
Salt Powder : 4500  
Sodium Silicate : 1500

### INTERNATIONAL TRADE & MARKETING

We are actively engaged in the import of chemicals as per our client requirements. Some of the products imported by our international marketing department are :

Soda Ash - Sodium Tri Poly Phosphate - Refined Glycerine  
Precipitated Calcium Carbonate - Sodium Percarbonate - Zeolite 4A  
Sodium Sulphate - Phosphoric acid - Penta Erythritol  
Titanium Dioxide [Rutile & Anatise] - Stearic Acid

Apart from the local Indian market we are currently exporting to many countries in Europe, Africa, Middle East and other Asian countries. Among our customers are also multinational companies who are truly considering us as an integral part of their supply chain system as we have been a transparent and credible member of their team since many years.
