

**SUDARSHAN  
GROUP**

## **MINING TO MICRONIZING**

Leading Manufacturer & Supplier Of  
Minerals And Chemicals

[www.sudarshangroup.com](http://www.sudarshangroup.com)

# WELCOME TO SUDARSHAN GROUP

## Introduction

Established in 1975, Sudarshan Group is a trusted manufacturer and supplier of industrial minerals and chemical products for domestic and international markets. With decades of experience, the group is known for quality-driven processes and reliable supply.

Backed by experienced leadership, modern infrastructure, and a skilled workforce, Sudarshan Group offers a diverse range of minerals including calcium carbonate, dolomite, talc, china clay, feldspar, silica, and mineral grains. The group serves industries such as paints, plastics, paper, ceramics, rubber, cosmetics, and construction with consistent quality and long-term commitment.

**Mr. R.P. Gupta**  
*Chairman*

With over 40 years of experience, Mr. R. P. Gupta has played a key role in building Sudarshan Group into a quality-driven and trusted organization. His vision and ethical leadership continue to guide the group's sustainable growth.

*Our success is built on an unwavering commitment to  
quality, integrity, and lasting customer trust.*

# GROUP OF COMPANIES

## Manufacturing Subsidiaries:

- Sudarshan Microns
- Sudarshan Minerals Industries
- Sudarshan Chemicals
- Sudarshan Minchem Limited
- Agarwal Minerals
- Agarwal Detchem Pvt. Limited
- Sudarshan Silicate Pvt Ltd
- Sudarshan Addpack

## WHY CHOOSE US

Our Manufacturing Unit

Latest Production Technology

Quality Assurance

Consistency & Quality

## 01 CALCIUM CARBONATE

A naturally occurring mineral used as a key raw material in industries such as paints, plastics, paper, rubber, construction, and chemicals. It improves strength, brightness, and durability of end products.

### APPLICATIONS:

- Paint Industry
- Paper Industry
- Plastic Industry
- Polymer Industry
- Cosmetic Industry
- Construction – Chemical Industry
- Rubber Industry
- PVC Industry

## 02 DOLOMITE

A calcium magnesium carbonate mineral used in steel, glass, ceramics, construction, and agriculture industries for its high purity, thermal stability, and excellent chemical resistance.

### APPLICATIONS:

- Paint Industry
- Plastic Industry
- Glass Industry
- Ceramic Industry
- Construction – Chemical Industry
- Rubber Industry

## 03 SOAPSTONE / TALC

A soft, heat-resistant mineral mainly used in ceramics, cosmetics, electrical components, paints, and paper industries due to its smooth texture and excellent insulation properties.

### APPLICATIONS:

- Paint Industry
- Plastic Industry
- Polymer Industry
- Cosmetic Industry
- Paper Industry
- Rubber Industry
- Ceramic Industry

## 04 CHINA CLAY (KAOLIN CLAY)

A fine, white clay mineral extensively used in ceramics, paper coating, paints, rubber, pharmaceuticals, and cosmetics to improve whiteness, smoothness, consistency, and finish quality.

### APPLICATIONS:

- Paper Industry
- Paint Industry
- Ceramic Industry
- Cosmetic Industry
- Rubber Industry

## 05 FELDSPAR

An important industrial mineral used in glass and ceramic manufacturing, acting as a flux to reduce melting temperature while improving hardness, durability, and surface finish.

### APPLICATIONS:

- Paint Industry
- Glass Industry
- Ceramic Industry
- Construction - Chemical Industry

## 06 SILICA / QUARTZ

A hard, chemically inert mineral used in glass, foundry, construction, electronics, water filtration, and industrial applications for its high purity, strength, and thermal resistance.

### APPLICATIONS:

- Paint Industry
- Polymer Industry
- Glass Industry
- Ceramic Industry
- Construction - Chemical Industry
- Rubber Industry

## 07 PRECIPITATED CALCIUM CARBONATE

A high-purity, synthetically processed calcium carbonate offering excellent whiteness, uniform particle size, and consistent performance across multiple industries.

### APPLICATIONS:

- Paint Industry
- Paper Industry
- Plastic Industry
- Polymer Industry
- Cosmetic Industry
- Rubber Industry
- PVC Industry

## 08 GRAINS (silica, Dolomite, Calcite)

High-quality processed mineral grains used in construction, flooring, landscaping, filtration, and industrial applications, offering uniform particle size, strength, durability, and consistent performance.

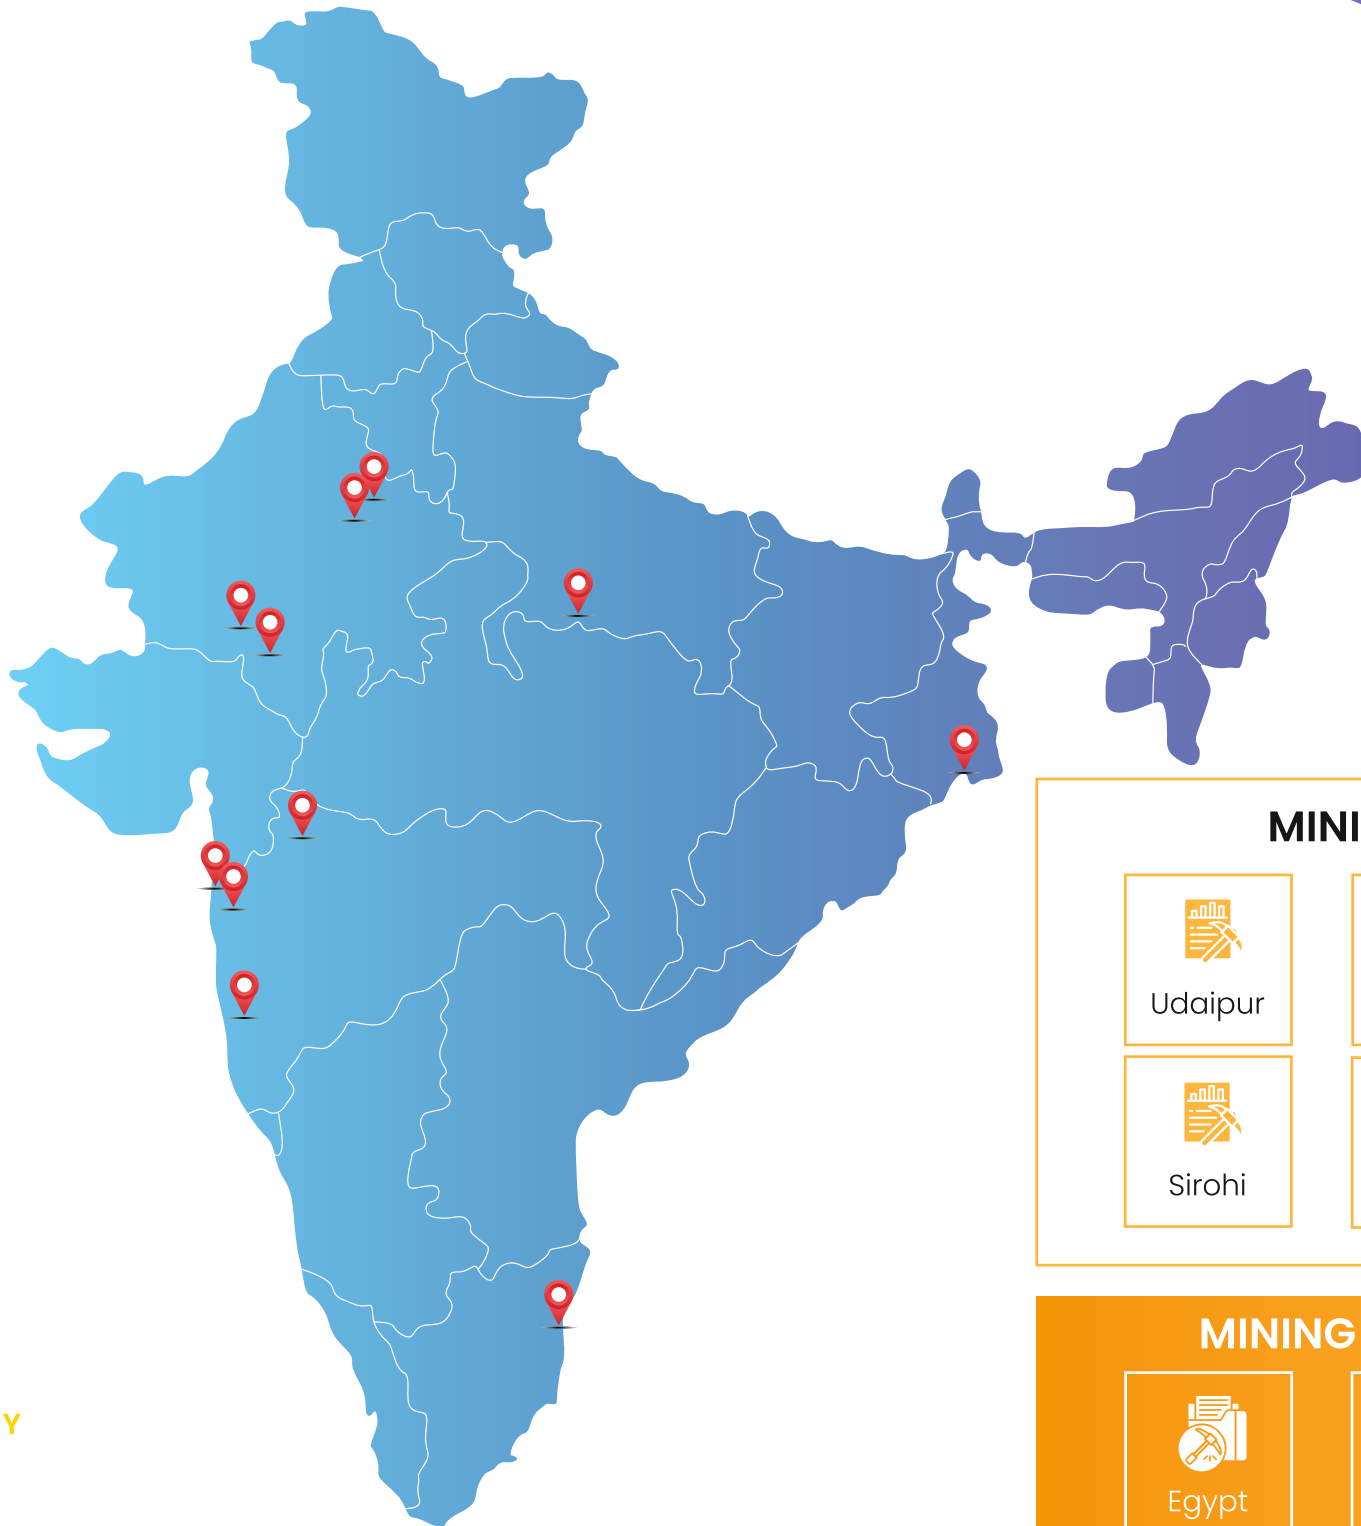

### APPLICATIONS:

- Paint Industry
- Glass Industry
- Filler Masterbatch Industry
- Ceramic Industry
- Construction - Chemical Industry

# PLANT PRESENCE

- ① UDAIPUR
- ② MAKRANA
- ③ SILVASSA
- ④ DHULE
- ⑤ PARBATSAR
- ⑥ AMBOLI
- ⑦ HALDIA
- ⑧ SUMERPUR
- ⑨ CHIPLUN
- ⑩ PONDICHERRY

## MINING IN INDIA

 Udaipur	 Ambaji	 Makrana
 Sirohi	 Banswara	 Chota Udaipur

## MINING OUTSIDE INDIA

 Egypt	 Vietnam	 Malaysia

# SCIENTIFIC VALIDATION OF QUALITY & CONSISTENCY

*Defined by accuracy, governed by discipline*

Sudarshan operates an in-house laboratory supported by an **ISO 9001:2008** certified quality management system. Strict adherence to national and international standards ensures consistent product quality, controlled processes, and reliable performance across all mineral grades.

## Material Properties

*Whiteness, bulk density, flow behavior, particle size distribution*

## Chemical Evaluation

*Mineral composition and purity analysis*

## Microbial Assessment

*Bacterial and fungal testing of finished products*

## SUDARSHAN GROUP LABORATORY

## OUR PAINT CUSTOMERS

Trusted by leading paint manufacturers across India

## OTHER ESTEEMED CUSTOMERS

Associated with industry leaders across diverse sectors

Thank you

for choosing Sudarshan Group as your trusted minerals partner.
